

CORPORATE PROFILE

Technical Planning Show Design Pre-Production

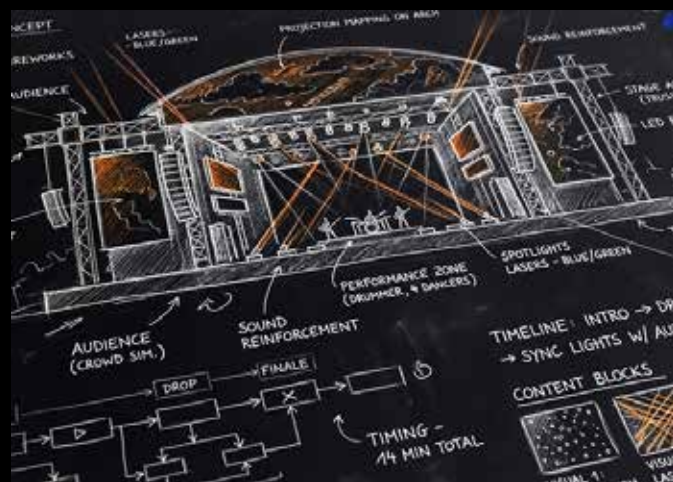

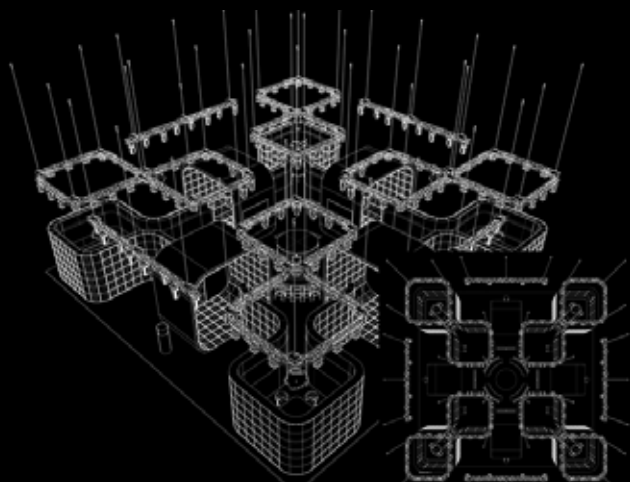

SPECIALIST EXPERTISE, COORDINATED DELIVERY.

PREVIS Show Production L.L.C is a Dubai-based division of iRIG, specialising in technical planning, multimedia show design and pre-production for live events.

Supporting corporate events through to stadium-scale productions worldwide, we translate creative concepts into detailed technical plans and visualisations.

Integrated Production Expertise

Specialist services that connect creative intent with technical requirements, from initial site assessment to show preparation.

01

3D venue scanning

Venue capture to support accurate digital models and floor plans.

02

Technical planning & CAD

2D drawings, 3D modelling and load calculations for detailed technical coordination.

03

Multimedia show design

Integrated design across lighting, video, audio, lasers, drones, special effects and automation.

04

Pre-production

Collaborative preparation to identify and resolve creative and installation challenges.

05

Pre-programming

Studio-based programming to prepare show systems before arrival on site.

06

Visualisation

Stills, animations and scaled show previews to review the production before delivery.

TOOLS Leica BLK360 G1 / Cyclone Register 360 / Vectorworks / Depence

Experience

Process

Precision

Industry experience and a structured approach to the planning and preparation of complex live productions.

Peter Heybutzki

CO-FOUNDER

More than three decades in live events, specialising in lighting systems, immersive environments and large-scale multimedia productions.

A structured project approach

From the initial brief to visual review, our process brings together creative development, feasibility assessment and technical preparation.

- | | | |
|----|---------|---|
| 01 | ASSESS | Brief, technical survey and feasibility study |
| 02 | DEVELOP | Design, CAD and technical planning |
| 03 | PREPARE | Pre-production and visualisation |
